35 - What two things would you change about this course?

Response Rate	4/5 (80%)

- 1) There are so many assignments due so quickly! Maybe try to spread out due dates further in the future. 2) More innovative technologies - I was familiar with most of the tools we used already

- Nothing Assignments were very clear and the instructor was extremely helpful

- There was a lot of outside of class work that felt overwhelming at times.

- I would recommend making sure this class is offered in a computer lab. It's not fair to assume that all students have access to the same technology.
